

STOP SHOPPING! STOP SHOPPING!

TO STOP THE WAR!

1) No buying while soldiers are dying! When you *stop shopping*, you send the message to politicians that you are fed up with this war.

2) Over 3,000 US soldiers and 655,000 Iraqis have died since the beginning of the war. Let's end the war and give everyone the gift of peace this Holiday season.

3) Give a meaningful gift. Give your money instead to pro peace, environment or human rights/service groups

4) We all know what a good present feels like. You don't have to spend money to express your love to people in your life.

TO SAVE THE EARTH!

1) We cannot survive at our current rate of consumption. According to the World Wildlife Fund, the Earth's resources will be depleted by 2048! It's time to cut back.

2) Big businesses are less accountable. For example, Victoria's Secret sends out over 1 million catalogs from paper sourced from some of our last remaining forests. Let them know that you will not support them!

3) Clarify your values and have the courage to live them out. Do you really want to give Susie a sweater that was sewn by child sweat-shop labor and made of polluting chemicals?
