**1 Eric McDavid** was arrested in January 2006 and charged with a single count of conspiracy. Eric, who never carried out any actions and was accused of what amounts to "thoughtcrime," refused to cooperate with the state and took his case to trial. He was convicted by a jury after a trial fraught with errors and sentenced to almost 20 years in prison. More information on Eric and his case is available on [supporteric.org](http://supporteric.org).

**2 Marie Mason** was arrested in March 2008 after her former partner turned informant for the FBI. Facing a life sentence if she went to trial, Marie accepted a plea bargain in September 2008, admitting her involvement in the burning of an office connected to **GMO** research and the destruction of a piece of logging equipment. She was sentenced to almost 22 years in February 2009. Information on Marie and her case can be found at [supportmariemason.org](http://supportmariemason.org).
