THE
CHARGES
AGAINST
THE
SANTA CRUZ
ELEVEN**

Eleven local activists have been charged with a variety of offenses arising from the occupation of a vacant bank building last fall.

Condemn any attempt to criminalize their exercise of the crucial First Amendment right to gather and disseminate information about this newsworthy event.

The District Attorney should re-examine the basis for the charges, and the Court must ensure that these activists are not being selectively prosecuted.

All charges based on this constitutionally protected activity should be dropped immediately.

**Stop Wasting Taxpayers Money on These
Witch-Hunt Prosecutions!!**
