Re: Message of Solidarity.

The Liverpool Dockworkers both past and present salute the actions of Local 10 and the Oakland Community Picket, taken against the Israeli government controlled Zim Line vessels. Furthermore their magnificent actions strike a blow against the Israel apartheid regime for their continued massacre and destruction of Gaza.

For far too long people in power have turned a blind eye to the Israeli slaughter of innocent Palestinian men, women and children, now we are seeing the labour and trade union movement in Oakland fighting back, and their actions must be supported by port and dockworkers the world over.

If we can be of any immediate help in terms of publicity or campaigning please let me know.

In Solidarity,

TERRY TEAGUE. (DOCKS, WATERWAYS & FERRIES OFFICER.)
