

DON'T PUNISH PAIN RALLY

Saturday, April 7th 9 AM-11 AM

State Capitol, south steps 10th and L street Sacramento, California 95814
Contact info: Don't Punish Pain Rally group on Facebook or
Dontpunishpain@gmail.com

In 2016, the CDC implemented guidelines to address the illicit Fentanyl/Heroin overdosing epidemic. Due to the OVERCORRECTED guidelines, many primary care physicians, pain management doctors, pharmacies, and even hospitals, have been forced to abandon the chronically ill community.

WHO ARE WE?

Our community includes people who suffer from painful, incurable, and often invisible illnesses. We represent millions in our country who battle a wide range of severe diseases and painful conditions.

WHY RALLY?

This rally will give us a united voice, and hopefully gain nationwide media coverage.

DOES THIS ISSUE AFFECT YOU?

YES!! The DEA drastically reduced the production of IV pain medication, which has already created a shortage.
