

Biden, Khanna Stop the Support, Stop the Bombings, Stop the War!

- The war on Yemen has spanned 3 administrations, killing hundreds of thousands of Yemenis.**
- A year ago, Biden announced an end support of "offensive operations", but the bombings and killings continue.**
- Empty rhetoric and weak ammendments by "progressives" like Khanna are not enough to end Saudi and UAE attacks.**

**Join us for a protest
on the anniversary
of Biden's inaction!
We demand a War
Powers Resolution!**
